Automobile Accident at Pawcatuck

Miss Mabel E. Bray of Pawcatuck was injured when Trolley Hit Car—C. A. Morgan Sues C. F. Sisson for Damages—New Road for Charlestown Shore—Oiled Roads Don't Need Sprinkling.

It will be welcome news to many cottagers along Charlestown beach, which now extends into South King-
ston, to learn that it has been definitely decided to build a new road in the southwest part of the town from Charlestown town line east in order to provide suitable accommodations for those who have built cottages along the shore. This matter has been agitated for several years and last week the town council of South Kingstown finally decided that a new road is necessary and has appointed a committee to make the layout.

The road will probably be built the coming fall and assurance is given that the town of Charlestown will also construct the short stretch of road in that town to make the road complete.

Miss Mabel E. Bray, whose home is at 52 Moss street, Pawcatuck, and who is employed as stenographer in the Pawcatuck office, was injured in an automobile accident in that city Saturday afternoon.

She was one of the five occupants of the big touring car owned and driven by John F. Autran, the others being Mrs. Autran, Mary Doyle and Margaret Case. Mr. Autran had just started to turn the machine around in front of his residence and when on the track the automobile was struck by a trolley car. The occupants were thrown in the street and all were more or less shaken up and bruised. Miss Doyle received wrenching of her back and hip and is perhaps the most seriously injured.

The trolley car smashed into the automobile broadside and practically ripped it in two. It is said the brakes on the trolley failed to work properly, but the blame for the mishap will be fixed by investigation.

Miss Bray informed her relatives Monday that her injuries were comparatively slight and that she would in a few days be able to resume her employment.

George Lawton, a native of Westerly, a human wreck morally and physically, and who was sent to the state farm six days last winter, was arrested in the Third district court on Monday, charged with being an idle and dissolute person, with no visible means of subsistence, and guilty of being a vagrant. He was sentenced again to the state farm for sixty days.

Lawton has been in New London, where he became a nuisance. Last Friday he was before the New London police court on the charge of vagrancy. He declared that his home was in Westerly and he would get it if given the opportunity. Sentence was suspended and his fare was paid from New London to Westerly. He was given rest in the Pawcatuck police station Friday night and was wanted to keep away from there or he would be jailed in New London.

Then Lawton hobbled across the Broad street bridge into his native town of Westerly and applied for lodging at the Westerly police station Saturday night. It was considered a menace to public health to permit Lawton to be large, so he was held as a tramp and sent to the state farm.

A suit for damages has resulted from the recent automobile collision on the Post road between the owners of the Charles A. Morgan of Westerly and Charles Franklin Sisson, Jr. of Binghamton, N. Y. in which the corner of the Morgan machine was crushed into his machine to the amount of \$3,000.

Sisson was indicted by Dixon and Rathbun, attorneys for the Morgan and the Sisson machine, now in a local garage, has been attacked and served by Mr. Sisson. The suit was the mishap where a head-on collision was avoided by the dexterity of James Mahoney, chauffeur for Mr. Morgan.

The Sisson machine, however, was going in the direction of Narragansett Pier and the Morgan machine was coming towards Westerly. The Morgan machine, however, was going in the direction of Narragansett Pier and the Morgan machine was coming towards Westerly.

Although weather conditions have to a considerable extent been seriously injurious to many of the crops, the farmers are still hopeful of presenting attractive displays at the coming Washington county fair to be held at Narragansett Pier on September 12.

Clark Smith of New Britain was at his home on South Main street over Sunday.

Improvement at Park.
The lower end of the park which is the ball grounds and play ground of the Academy, has been moved and is being put in line with the park which is taken care of by the borough.

A number drove to Willimantic camp grounds, Sunday, to attend the services.

William H. Van Horn of Willimantic is the guest of friends in town for a few days.

Mr. and Mrs. Henry Spoof of Hebron were in town Sunday making the trip in their touring car.

Touring Cars Pass Through.
A number of touring cars passed through the borough Sunday. Those known came from Norwich, New London, Hartford, Hebron and Orange.

Day at Watch Hill.
E. A. Carrier and party of friends went to Watch Hill Sunday morning in Mr. Carrier's touring car, where they left on the Block Island for a day's outing at Watch Hill.

Mr. and Mrs. Henry J. Bailey and family were the guests of relatives in Yantic Sunday.

John O'Brien of Hartford is at his home on South Main street for a week's vacation.

Eugene Sullivan and family of Naugatuck are visiting relatives in town.

Misses Annie and Rose Smith returned Saturday from a two weeks' trip in Maine.

David S. Bal of Bridgeport was at his home on Norwich avenue over Sunday.

Congregational Church Services.
At the morning services in the Congregational church, Rev. Frank M. Goodchild, D.D., gave a very interesting sermon on the subject "The Inner Man." At the afternoon service, Miss Emma Williams of New York sang a fine solo entitled "There is a Green Field Far Away." By Gounod, Miss Williams has an excellent voice and has been heard in solos at the church a number of times.

New Era Club Gave Dance.
A new club just formed called "The New Era" gave a social dance in Grange hall Monday evening which was fairly well attended. Music was supplied by orchestra. Prof. Bland called the figures.

Civic and Masquerade Ball.
The grand social event of the season

The Doctor Writes of Counterfeiters.

CHAS. H. FLETCHER, New York City. Hyannis, Mass., Aug. 17, 1905.

Dear Mr. Fletcher—I wish to congratulate you on your numerous victories over counterfeiters and imitators of Castoria, and trust the time is not far distant when these inferior and dangerous mixtures will be entirely suppressed.

You are right when you say in your advertisements that it is "Experience against Experiment."

I feel it to be an outrage, and an imposition upon the parents of little children that my name should be associated with imitations of Castoria, dangerous to the health and life of these little ones who too often fight their battles for life in vain.

Let me again commend you for the high standard you have maintained in the preparation of my prescription, and I confidently believe it is due to this scrupulous integrity you are indebted for the wonderful sale of Castoria to-day, and the steady growth it has had since I gave you the details of its manufacture in my laboratory thirty-three years ago.

Letters from Prominent Druggists addressed to Chas. H. Fletcher.

Maner Drug Co., of St. Paul, Minn., says: "We are not in the habit of recommending proprietary medicines, but we never hesitate to say a good word for Castoria. It is a medical success."

Hegeman & Co., of New York City, N. Y., say: "We can say for your Castoria that it is one of the best selling preparations in our stores. That is conclusive evidence that it is satisfactory to the users."

Myers-Dillon Drug Co., of Omaha, Neb., says: "Your Castoria is one of the best sellers we have. We cheerfully recommend it to our trade voluntarily at all times, and will testify to its merits at any and all times."

Weber Drug Co., of Indianapolis, Ind., says: "Fletcher's Castoria is an article for which there is no substitute. It is undoubtedly one of the most popular articles on the market to-day and our customers for it are numbered by the hundreds."

Farrish & Bailey Pharmacy, of Los Angeles, Cal., says: "During an experience of over 30 years in the retail drug business we have never found a proprietary remedy that has had such a large sale or given such universal satisfaction as your Castoria."

Theo. Metcalf Co., of Boston, Mass., says: "We have handled Fletcher's Castoria for years and consider it one of the best preparations made. Our sales are continually increasing and everyone of our customers have nothing but praise for Fletcher's Castoria."

W. H. Chapman, of Montreal, Que., says: "I have sold Fletcher's Castoria for many years and have yet to hear of one word other than praise of its virtues. I look upon your preparation as one of the few so called patent medicines having merit and unhesitatingly recommend it as a safe household remedy."

GENUINE CASTORIA ALWAYS Bears the Signature of

with the summer boarders, a civic and masquerade ball, was held at Kohen's

place of rest under the direction of the Fourth district association, has been placed temporarily on the grounds of the New York Giants, owned by

Frank Browning and father of Lebanon were called in town Sunday.

Independents Won.
The game of ball on the park Saturday afternoon was very loosely played on both sides. West and Tyan won the battery for the Independents and Danovich and Morris were for the Giants.

The score was 25 to 13 in favor of the Independents. John Cavanaugh umpired the game.

The ball game between the Independents and the North Carolina coast, just outside the three-mile limit, is reported to be a menace to navigation and to be difficult to remove.

It may be that the government will determine to mark the wreck with a day buoy instead of attempting to destroy it. The revenue cutter service today received a telegram from Cap-

tain Carmine of the cutter Seneca, which was sent down to investigate, in which he says:

"Wreck Anglo-African located yesterday. Position given in letter correct. Sea too rough for mine work. Have gone to Hampton roads for anchorage to await favorable weather conditions. The wreck is a steel vessel 270 feet long, 300 tons registry. To remove as a menace to navigation will require wrecking company's outfit and several weeks' work. We can break apart and bend up hull, no doubt, but the steel material in all shapes will remain and prove an obstruction."

It would cost several thousand dollars to destroy the wreck and remove all obstructions. The vessel is not in the course of heavy shipping, and therefore it may be thought advisable to buoy and leave the wreck as it is. The department of commerce and labor will have to decide this question.

Washington, Aug. 16.—The wreck of the steamship Anglo-African near Smith's island, off the North Carolina coast, just outside the three-mile limit, is reported to be a menace to navigation and to be difficult to remove.
